PRESIDENT'S REPORT to the Annual General Meeting

Well, another is nearly over, with Christmas just around the corner, how time flies!

Another busy year with over 140 club events held for members to participate in. These events range from a quick run down to the local coffee shop on a Saturday, to a 4 day run to interesting spots around NSW. My heartfelt appreciation goes out to my committee for all the hard work they put in. They completed work on the Constitution and the Rules associated with owning a vintage car and/or bike.

The club membership grew over the past year plus we also we introduced guest speakers on our monthly club meetings which I would like to see expanded in the next year.

Also there is some unfinished business with Eurobodalla Toyota becoming a major sponsor of the club. I hope the new committee will put the finishing touches to this arrangement.

It is pleasing to see that a committee has now been formed to oversee the running of the Bay to Bermagui next year.

It has been a pleasure to serve the club as President and I wish the new committee well for the next year.

I apologise that I am unable to attend the AGM due to another commitment.

President Greg

We are now in our 4th year and to date have raised over \$13,500.00 for local Cancer organisations. Annual this event attracts over 150 cars on display with 3500 visitors. SIR STIRLING'S QUOTE OF THE MONTH

Imperturbable World Champion rally driver of the 60's, Erik Carlson coming to rest upside down on a rail crossing, at the conclusion of a high speed rollover in his 3 cylinder Saab.
"Ve go now, the train is coming"

A note from Ward

I had to tell one of my Welsh friends that I had seen a motor car that had been made by a character called Dai Hatsu

And while we're talking of Wales

Who can beat this one!!

After having dug to a depth of 10 feet last year, Irish scientists found traces of copper wire dating back 100 years and came to the conclusion that their ancestors already had a telephone network more than 100 years ago.

Not to be outdone by the Irish, in the weeks that followed, an English archaeologist dug to a depth of 20 feet, and shortly after, a story published in the Times read:

"English archaeologists, finding traces of 130-year-old copper wire, have concluded that their ancestors already had an advanced high-tech communications network 30 years earlier than the Irish".

One week later, the Penarth Times, in Glamorgan, South Wales, reported the following:

"After digging as deep as 30 feet in his pasture near Llandow, South Glamorgan, Dai Jones, a self-taught archaeologist, reported that he found absolutely nothing. Dai has therefore concluded that 130 years ago, Wales had already gone wireless."

Just makes you proud to be Welsh

And from John Wiegold

Not many people know of this interesting fact.

In 1872 the Welsh invented the condom, using a sheep's bladder.

In 1873 the English somewhat refined the idea by taking the bladder out of the sheep first.
